⚠ BEWARE JACKRABBIT + SPOONFULOFSUGA/CUM(ZOO)

Posted 18 hours, 23 minutes ago (Edited 6 hours, 56 minutes ago) by Ciel_phantomhive

It has come to my attention the other thread creator of clearly zoophillic content creators decided to not continue their own thread I have decided it is my personal duty to callout both of these specific users(as I think they're the WORST!!!), as they time and time do NOT learn and continiously tell everyone and their grandma they're proship and hate antis.

MAJOR TRIGGER WARNING FOR CENSORED FERAL PORN AND DEAD DOVE STUFF, I WARNED YOU!!!!!!!!! This thread is being set to mature for a reason!!!! Some of this is also diaper/babyfur related because of COURSE THEY SUPPORT PEDOPHILIA.

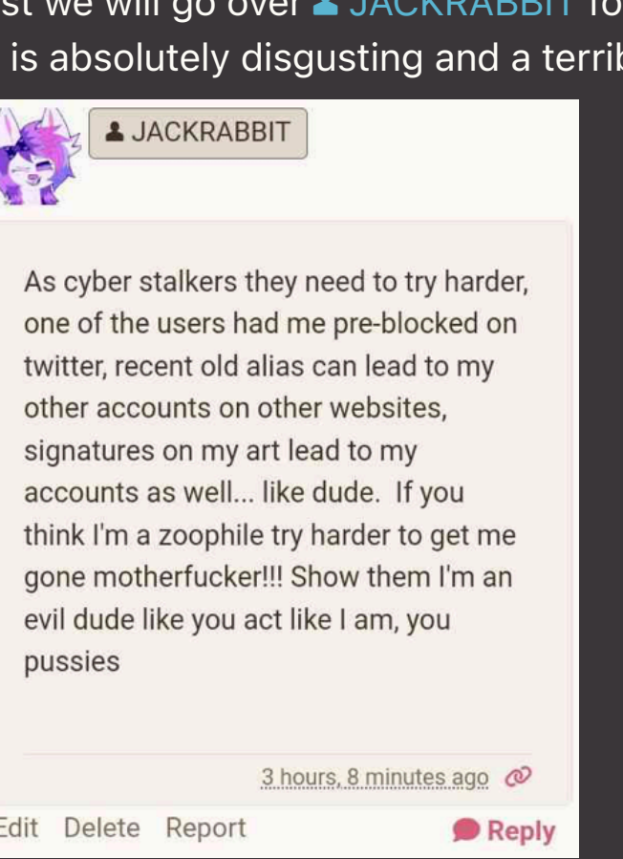
First we will go over JACKRABBIT for his various crimes, he thinks these callouts are FUNNY! I will prove him wrong, he is absolutely disgusting and a terrible person.



JACKRABBIT

As cyber stalkers they need to try harder, one of the users had me pre-blocked on twitter, recent old alias can lead to my other accounts on other websites, signatures on my art lead to my accounts as well... like dude. If you think I'm a zoophile try harder to get me gone motherfucker!!! Show them I'm an evil dude like you act like I am, you pussies

So I think the user who made that callout post on me and others (★ __PNG, ★ SpoonfulOfSuga, etc) seems to have given up. A user found my twitter but they refused to link it. Their doc on all of us got taken down for nudity. And most of all, the thread is locked so nobody can even complain. Damn. (Even their bulletin is gone!)

Kind of sad, I expected more of an effort. Not even that sparkledog doc could stay up with a bunch of people on there. I wonder when these people will learn these types of callouts just boost our accounts? I wonder.

I wonder when my next one will be.

First of all, JACKRABBIT SUPPOTS BABYFURS AND DIAPERFURS, which is super fucking disgusting and pedophilic. He makes a lot of jokes about it, and even DRAWS IT.

Controversial.

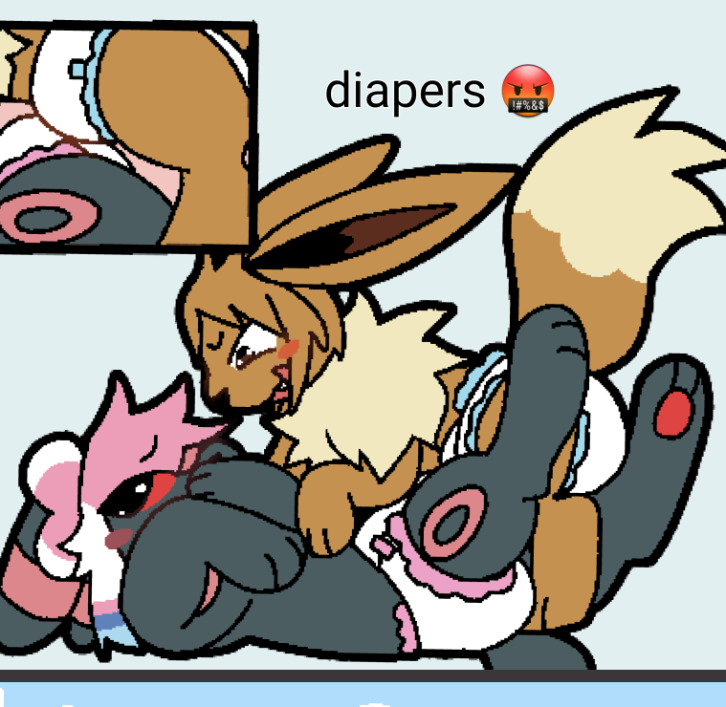
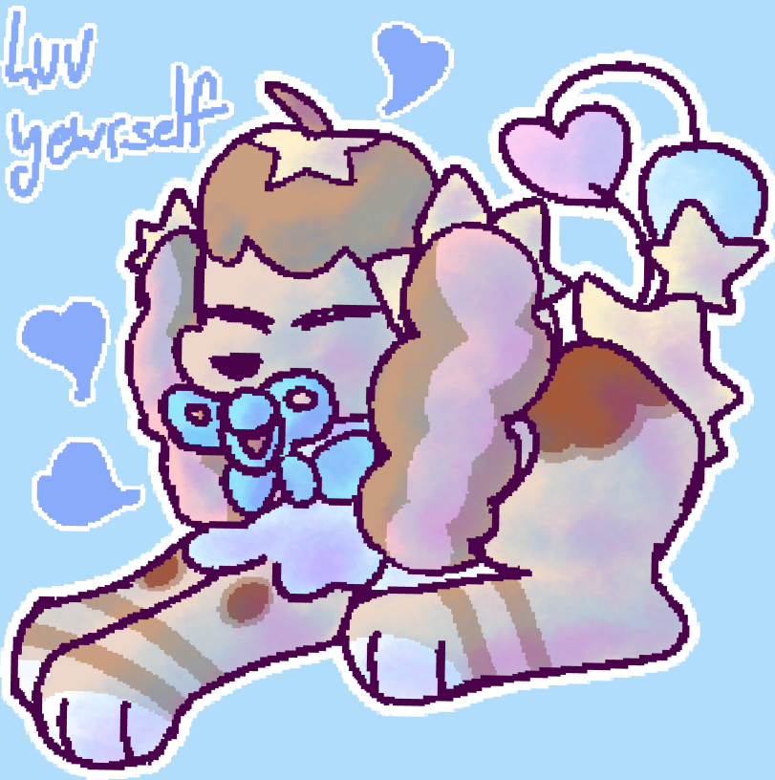
Disgusting.

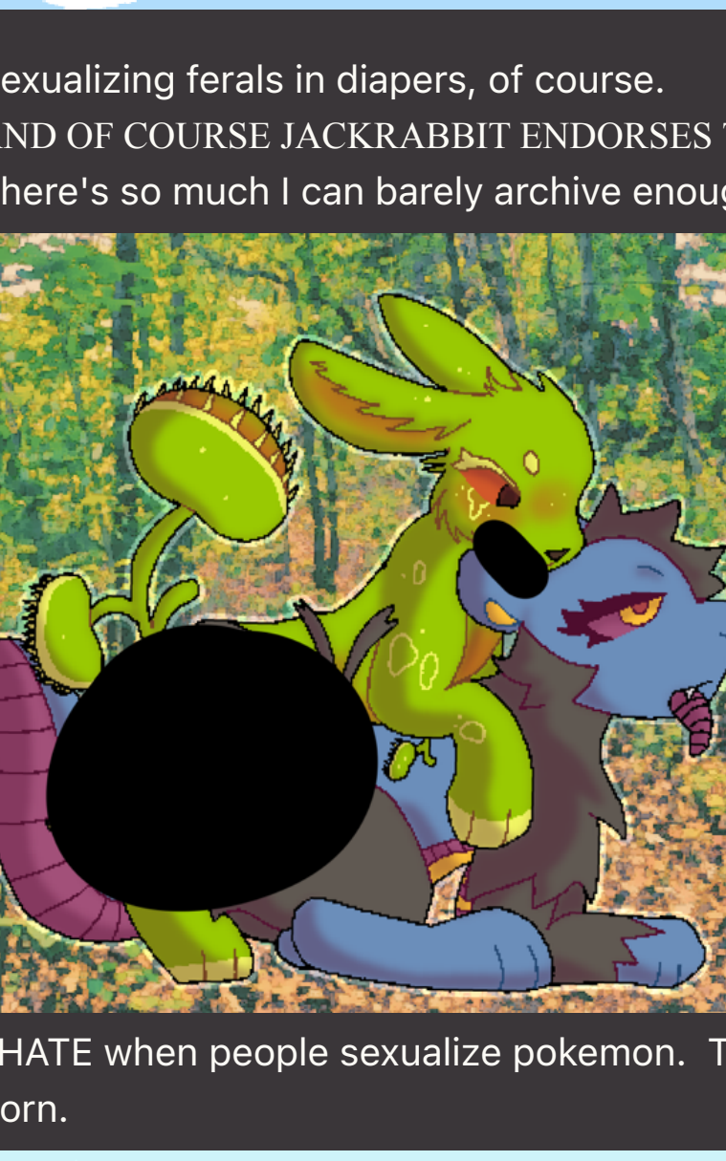




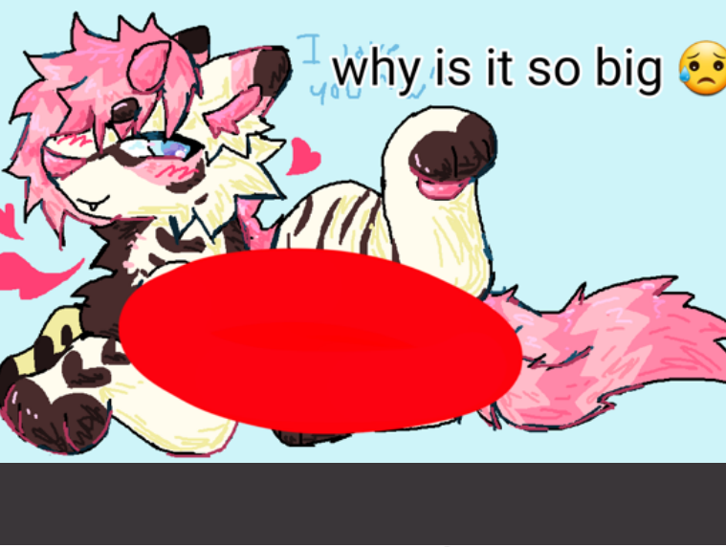
Sexualizing ferals in diapers, of course.

AND OF COURSE JACKRABBIT ENDORSES THE LIVING SHIT OUT OF FERAL PORN

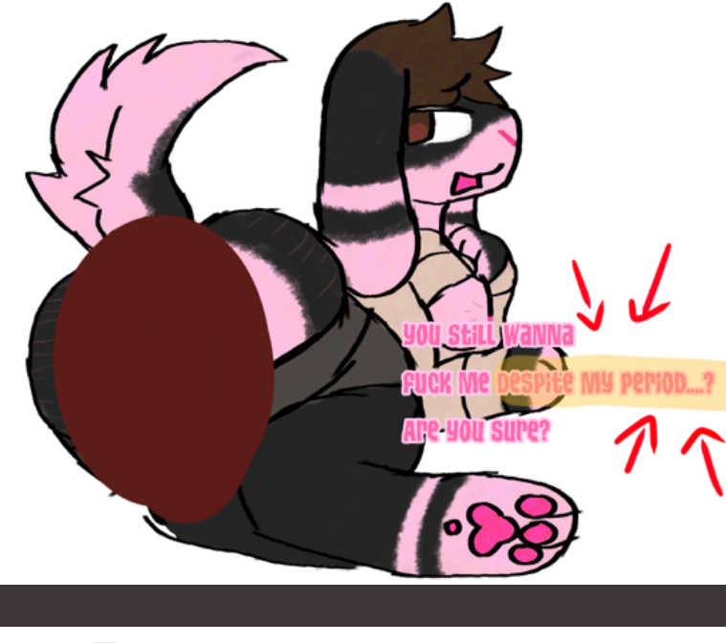
There's so much I can barely archive enough of it.



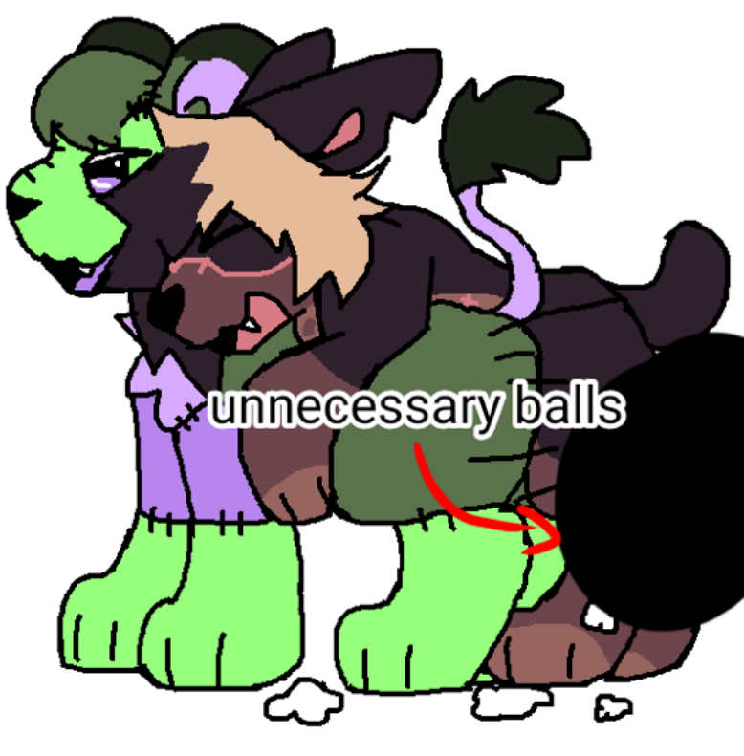
I HATE when people sexualize pokemon. They're based on REAL ANIMALS, that's no different from "normal" feral porn.



why is it so big 😟



you still wanna suck me before my period..? are you sure?



OF COURSE THEY USE THE GOD DAMN Caffeyeen DESIGN IN THEIR FERAL PORN. DISGUSTING.

Now ★ SpoonfulOfSuga is so open about being a shitty person they have it on their profile..

I was going to ask what's wrong with them being a babyfur because isn't it just a puppy or smth and then I saw it

if your gonna do this please act mature instead of going "they find this FUNNY!!! i'll prove them wrong >:(((" and other unnecessary comments, just put their name and what they did.

Also please stop calling baby furs pedos as baby furs as a whole is for people who usually age regress. In this case yea its gross their sexualizing it but you wording it as them just BEING a baby fur is pedo is not cool.

Hey OP maybe let's not harrass the other creator for their thread. It clearly stressed them out how YOU were interrogating them and they want nothing to do with you. This is clearly not a serious thread and you're trolling/making fun of people who call people out like you. That's Disgusting !

★ doggirl

This account belongs to MEZZANINE aka JACKRABBIT due to their provided screenshots. I'd advise y'all to block AND report OP and all of their other accounts be caused apparently this is a joke to them.. :-/

(I do not wish to be pinged or further involved after this post please)

The only way to get the screenshots you did from the posts made by the JACKRABBIT account would be to get them directly from JACKRABBIT themself if the posts have the option to edit or delete the posts. With that in mind, unless JACKRABBIT actively provided these screenshots directly to you for a PSA on themself (assuming they ARE a different person), this would be evidence that you have access to the account. This example is in the other PSA thread of how it should look if the account is actively being used or if it is being taken from an unrelated account:
